

**Concept & Forme SA
B-5170 Bois de Villers**

07

Number of declaration of conformity **QA071324003**

EN 13240:2001 and EN 13240 A2:2004
Roomheaters fired by solid fuel

Stûv 16/68 CUBE

Distance from adjacent combustible materials : behind 10cm
: on the sides 15cm
: below 0cm

Recommended fuel : wood logs only

	Closed door
Nominal heat output	10 kW
Efficiency	74 %
Co emission	0,18 %
Smoke temperature	360 °C

Read initially the note of installation and the instructions

Weight-flow ratio of smokes : 7,1g/s

Minimum draught needed to reach calorific rated power : 12Pa

Diameter of the duct for the intake of air for combustion : Ø63mm

Maximum length of the wood logs : horizontal 50cm

Unit mass : 143kg

Maximum wood/hour consumption : 4,7kg

Fine dust : 59mg/Nm³
